

Module 5: Online Flirting - How To Email With Men

# Lesson 1: The Inbox Grand Canyon

By Michael Fiore And Digital Romance, Inc.

# “Hot” Women’s Inboxes Get . . .

- Sex addicts
- Scammers
- Marriage proposals
- “Gawd, U R Hawt.”
- Tons of guys.
- “Puppy” like men
- Dozens and dozens of emails every single day. (I know, I was a woman once. Kind of.)
- Guys who are way too old or way too young.

# How do I know what women get?

Because I once was a hot chick online. (Sort of.)

# “Hot” Men’s Inboxes Get ...

- 18 year old nymphomaniacs who want us to go to their pay site and buy them gift certificates to Best Buy.
- “Desperate” women.
- Not much else. (It’s sad.)

Just like in real life, the expectation is  
that the guy is going to be the  
“chaser” and the woman is going to  
be the “chased.”

But if you want to have real success  
here you’re going to have to get out of  
your comfort zone.
